III. Announcements	Donald Taylor, Board President	A. A. Jeffers distributed packets of the draft regulations to be discussed to all guests with the request that the packets be returned at the end of the Public Board meeting.		
		B. C. Anderson reported that she is recused from voting on any Practice or Regulations Issues.		
		C. D. Taylor reported that D. Chason, M. Souranis, and R. Taylor have all been reappointed as Commissioners for a four (4) year term ending in April 2013.		
		D. C. Anderson reported that she attended the NABP test writing session for the Multistate Pharmacy Jurisprudence Examination (MPJE) on June 4 th and 5 th 2009 in Chicago. The attendees composed scenario based test questions that would subsequently be validated by NABP staff psychometricians for use in future MPJE examinations.		
		E. D. Taylor reported that the Prescription Drug Monitoring Taskforce meeting was held on June 5, 2009. The preliminary report requires revisions on several issues. Unresolved issues include rules for access to the system, levels of access, costs to users and where the data repository will be housed. Work continues on development of the framework of the report to the Legislature. L. Bethman reported that the Chair, J. Fader, has a University of Maryland Law School student who will assist the Committee in a review of laws and practices in other states. The next meeting is scheduled for July 17, 2009.		
		F. D. Taylor reported that he attended the MPhA annual convention in Ocean City, Maryland on June 13 th to 16 th , 2009. 1. A. Lin, the Dean of the College of Notre Dame, School of Pharmacy provided an update on the status of their program and the initial class of 70 students who will begin in the Fall. 2. N. Blanchard, Dean of the School of Pharmacy at the University of Maryland, Eastern Shore, School of Pharmacy provided information on their new pharmacy program. The School will apply for ACPE pre-candidate status this Fall. 3. The House of Delegates of MPhA discussed several resolutions a. The resolution on free antibiotic programs was tabled. b. The resolution recommending that the Board and Division of Drug Control combine inspections was approved with the recommendation to seek legislation. c. The resolution to simplify the Board of Pharmacy inspection forms, process and correct COMAR references passed. d. The resolution to require that a licensed pharmacist perform pharmacy inspections was defeated. e. The resolution to publically express concerns with the practice of concierge medical practices was tabled for further study of the economic impact on patients. 4. D. Taylor reported that L. Israbian-Jamgochian, M. Handleman, and L. Bradley-Baker also attended the MPhA meeting and assisted with the Board's booth		
		G. D. Taylor reported that the first Drug Therapy Management Taskforce meeting will be held on June 25 th 2009 at 10 A.M. Several groups may lobby against renewal of the legislation in Annapolis this year.

		I. D. Taylor reported that the American Society of Consultant Pharmacists (ASCP) has scheduled their annual meeting at Rocky Gap State Park August 6 th through August 9 th , 2009.		
		J. D. Taylor thanked F. Gibbs for her participation and enthusiasm during her first six (6) months serving as a staff attorney to the Board.		
IV. Executive Director	LaVerne Naesea, Executive Director	A. L. Naesea reported that A. Leandre has agreed to assist T. Banks in the development of a proposal for the new database that will include the technical requirements and logistics. Based on a review of the current status of the program by an outside IT company, it is estimated that the website development project would require up to twenty (20) weeks to complete with an estimated cost between 50 and 60 thousand dollars. The bid process to obtain contracts with the developers will begin next week. The expected start date will be August 2009. L. Naesea noted that approximately 30 thousand dollars remains from the Towson contract and requested Board approval to utilize up to 30 thousand dollars of additional funds to complete the project. This will allow the total approved expenditure to be up to 60 thousand dollars.	A. Motion: H. Finke made a motion to approve the \$30,000 additional expenditure to complete the new database system. R. Zimmer seconded the motion. C. Anderson was recused from voting.	A. Board Action: The Board voted to approve the motion.
		B. L. Naesea reported that the Annual Report has been completed and was available at the MPhA Annual Meeting in June.		
		C. L. Naesea reported that the articles for the first outsourced Newsletter have been completed and submitted to the vendor for printing in July 2009.		
		D. L. Naesea reported that she and A. Jeffers will meet with the Drug Therapy Management Taskforce members on Friday, June 19, 2009.		
		E. L. Naesea reported that the consultant contract for M. Smith will expire on June 30, 2009.		
		F. L. Naesea reported that the M. Hsu will be taking a 30 day vacation to visit family in China.		
		G. The freeze exemption has been received for the licensing manager position. The job description must be rewritten to reflect the changes in the increased responsibilities of the position. The revised job description is due by the end of June.		
		H. The Public Information Officer (PIO) position is vacant. L. Naesea will perform this role until a person is hired to perform the PIO functions.		
		I. L. Naesea reported that E. Linn and F. Gibbs are reviewing out-of-state distributor inspection documentation performed by other agencies to determine if their requirements are sufficient to satisfy the Maryland requirements.		
		J. L. Naesea reported that the Board is planning to send two (2) inspectors to Pennsylvania to complete inspections for distributor applicants. The Board has extended the waiver for those who still need to be inspected. About 140 applications are incomplete or still pending at this time, which may require the issuance of Cease and Desist Orders in the near future.		
		K. L. Naesea reported that the Board will be looking into reorganizing some of the units at the Board.		
		L. L. Naesea asked L. Simmons to distribute the ballots for the 2010 election of Board officers.

V. Legislation and Regulations	Anna Jeffers, Legislation and Regulation Manager	<p>A. Maryland Regulations</p> <p>1. A. Jeffers provided the status report on the Maryland Regulations.</p> <p>a. COMAR 10.34.09, Fees. The Emergency Proposal was submitted for approval on April 27, 2009. After receiving information from the Department of Finance, the fees were lowered to accommodate revised budget predictions. The proposed regulations will be re-submitted.</p>		
		<p>b. A. Jeffers reported on COMAR 10.34.17, Waiver of Full Service Requirements for Recognized Pharmaceutical Specialties. The proposal was published on March 27, 2009. Nine (9) official comments were received. The comments were considered at the May Practice Committee Meeting. The Practice Committee approved two (2) alternate responses concerning waiver permits for Continuing Care Retirement Communities (CCRC). A. Jeffers reported that the Practice Committee considered the following comments: ASCP is concerned that a pharmacy servicing a patient in a Continuing Care Retirement Community (CCRC) may be excluded from approval as a waiver pharmacy because it is not specifically listed under the services that a pharmaceutical specialty may include.</p> <p>OPTION I See the proposed COMAR 10.34.17.01(4) (b)(i) – (xi). The Board specifically included subparagraph “(xi) Other services approved by the Board.” to cover any specialties not listed or that may arise in the future. A pharmacy wishing to service a CCRC may apply for approval of a waiver permit and include this pharmaceutical specialty under COMAR 10.34.17.01(4)(b)(xi) for Board consideration.</p> <p>OPTION II See the proposed COMAR 10.34.17.01(4)(b)(i) – (xi). To address this oversight, the Board approved adding a definition of CCRC from the Human Services Article, 10-401, Annotated Code of Maryland, and adding CCRC to the list of services that a pharmaceutical specialty may include.</p>	<p>b.1. B. Motion: R. Taylor made a motion to approve Option I listing a CCRC under the “Other” category as an option for a Pharmaceutical Specialty.</p> <p>R. Zimmer seconded the motion.</p> <p>C. Anderson was recused from voting.</p> <p>b.2. Motion: C. Anderson made as motion to accept Option II with amendments specifically adding CCRC as a Specialty Pharmacy with the definition cited from the Human Services Article 10-401, of the Annotated Code of Maryland and that requirement that the CCRC provide the full range of services.</p> <p>D. Chason seconded the motion.</p> <p>C. Anderson was recused from voting.</p>	<p>1.b. Board Action: The Board voted to defeat the motion with a vote of five (5) to four (4).</p> <p>b.2. Board Action: The Board voted to approve Option II as amended to include the definition and service requirements.</p>
		<p>b.3. A communication was received as part of the revision of the regulations for Waiver of Full Service Requirements for Recognized Pharmaceutical Specialties from Marion Keenan representing the Hospice and Palliative Care Network of Maryland requesting clarification of the role of technicians.</p>	<p>b.3. B. Motion: D. Chason made a motion to not address the letter as part of the proposal Pharmaceutical Specialty regulations.</p> <p>R. Zimmer seconded the motion.</p> <p>C. Anderson was recused from voting.</p>	<p>b.3. Board Action: The Board voted to approve the motion.</p>

		h.1. A communication was received as part of the revision of the regulations for Pharmacist Administration of Vaccinations from Diane Darvey, representing the National Association of Chain Drug Stores (NACDS), requesting the addition of "if requested by the patient" to the requirement for informed consent.	h.1. Motion: D. Chason made a motion not to approve the recommendation to change the language in the proposed regulation. R. Zimmer seconded the motion. C. Anderson was recused from voting.	h.1.Board Action: The Board voted to approve the motion.
		h. 2 A. Jeffers reported that the Board is required to determine an effective date that accommodates the Licensing Unit implementation of the new regulations. The date must accommodate the considerations: . 1. During the initial registration, the pharmacist will have to provide evidence of successful completion of a certification course approved by the Board that includes current guidelines and recommendation of the CDC for herpes zoster, influenza and pneumococcal pneumonia vaccines. 2. During renewal of registration, the pharmacist will have to demonstrate successful completion of four (4) CE's that include education about herpes zoster and pneumococcal pneumonia vaccines. The proposed date for the regulation to become effective is anticipated to be August 1, 2009.	h.2. Motion: L. Israbian-Jamgochian made a motion to approve the proposed implementation date for the regulations of August 1, 2009 H. Finke seconded the motion. C. Anderson was recused from voting.	h.2.Board Action: The Board voted to approve the motion.
		i. COMAR 10.13.01, Dispensing of Prescription Drugs by a Licensee, was submitted to the DHMH November 20, 2008. The Board of Physicians responded to the Board of Pharmacy's April 7, 2009 with a letter indicating that the "appropriate Board is working with the DDC." A. Jeffers sent a follow-up e-mail to DDC on May 26, 2009 to determine the results of the inspections of dispensing physician licensees.		
		2. Revisions to regulations requiring Board approval. a. A. Jeffers presented the recommendations from the Practice Committee for COMAR 10.34.03, Inpatient Institutional Pharmacy with the recommendation to establish a workgroup to do an extensive revision of this chapter to bring it up to date with the current inpatient institutional pharmacy practice.	2. a. 		B. L. Bradley-Baker reported that the Acetaminophen Taskforce has been meeting monthly since February 2009. The meeting focus is to re-educate health care providers regarding the safe use of acetaminophen. An article is planned for Fall issue of the Board magazine.		
		C. L. Bradley-Baker requested, on behalf of the Public Relations Committee, that the one (1) page information brochure on acetaminophen for health care workers be posted on the Board's website.	C. Motion L. Bradley-Baker made a motion to post the informational brochure on the Board's website. D. Chason seconded the motion. C. Anderson was recused from voting.	C. Board Action The Board voted to approve the motion.
XI. Budget Resubmission	Michael Souranis, Treasurer	A. M. Souranis reported that the Maryland Office of Finance requested additional documentation of the reasons for the fee increases submitted by the Board. Based on a recalculation of the Board's income and expenses, the renewal fee for pharmacists was lowered from \$250 to \$225 biennially and the fee for renewal of pharmacy permits was lowered from \$650 to \$600 biennially. The updated fee increase proposal was re-submitted to the Office of Finance.		
XII. Practice Committee	Reid Zimmer, Chair	A. Regulations currently undergoing revisions: 1. R. Zimmer reported that COMAR 10.34.20, Format of Prescription Transmission is currently undergoing revision.		

Subject	Responsible Party	Discussion	Motion	Action/Results
		<p>2. R. Zimmer reported that COMAR 10.34.23, Pharmaceutical Services to Residents in Long-Term Care Facilities is currently undergoing revision.</p> <p>3. COMAR 10.34.25 Delivery of Prescriptions has been posted for informal comments, which will be considered at the next Committee meeting</p>		
		<p>B. R. Zimmer presented the following public inquiries:</p> <p>1. Roberta Gill submitted a request for a legislative change. Awhile ago, prompted by several cases I had where the pharmacist had been convicted of a crime/pled guilty, etc., but had not been sentenced, I suggested that a legislative change was in order to remove completely § 12-313 (a) which requires sentencing before the Board can take action, despite the presence of § 12-313 (b) (22), which calls for no such lag in taking action. I have had cases where the pharmacist was convicted but the sentencing took almost a year. This is the only board with this requirement. Please have it removed for the next legislative session-probably as a housekeeping measure. Thanks.</p> <p>RESPONSE: The Board commends you for suggesting this “housekeeping” legislation change. Keep in mind that the Board still has the authority to summarily suspend a licensee or permit holder for certain serious acts involving public safety without waiting for the full disciplinary hearing.</p>	<p>B. Motion: L. Israbian-Jamgochian made a motion to approve the letter as written.</p> <p>R. Taylor seconded the motion.</p> <p>C. Anderson was recused from voting.</p>	<p>B. Board Action: The Board voted to approve the motion.</p>
		<p>2. Cardinal Health - Martha Russell- Hospital Repackaging Arrangement</p> <p>We've got some large hospital customers in Maryland that buy bulk product from us and once they receive it they repackage it into unit dose form for use in their hospital. The bulk product is cheaper so they save money by repackaging it into unit dose verses buying it already in unit dose. Historically they've done the unit dose repackaging themselves, but now they are looking at outsourcing that to a 3rd party repackager that would unit dose all of their product for them instead of them having to do it themselves in the hospital pharmacy. The hospitals would still be buying product directly from us and title to that product would remain with the hospital throughout the repackaging process, but the hospital would like for Cardinal to ship the product straight to the repackager now instead of to the hospital pharmacy. Our invoice would indicate that ownership is with the hospital but the "ship to" address would be that of the hospital's repackager. The repackager would then unit dose the drugs and forward on to the hospital.</p> <p>I'm concerned this might raise pedigree implications and wanted to get your opinion. Because title and ownership would remain within the "normal distribution channel", the product wouldn't need a pedigree would it? Title would transfer from the drug manufacturer to Cardinal Health and then to the hospital pharmacy (drug manufacturer-->Cardinal-->hospital).</p> <p>RESPONSE: A pedigree is required when a “person who is engaged in the wholesale distribution of a prescription drug that leaves, or has ever left, the normal distribution channel shall provide, before each wholesale distribution of the prescription drug, a pedigree to the person who receives the prescription</p>	<p>2. Motion. H. Finke made a motion to accept the letter as written.</p> <p>L. Israbian-Jamgochian seconded the motion.</p> <p>D. Chason and C. Anderson were recused.</p>	<p>2. Board Action The Board voted to approve the motion.</p>

Subject	Responsible Party	Discussion	Motion	Action/Results
		<p>drug.” Health Occupations Article, 12-6C-10(a), Annotated Code of Maryland. Normal Distribution Channel means “a chain of custody for a prescription drug that, directly or by drop shipment, goes:</p> <p>1) From:</p> <ul style="list-style-type: none"> (i) A manufacturer of the prescription drug; or (ii) The manufacturer’s co–licensed partner, third party logistics provider, or manufacturer’s exclusive distributor; and <p>(2) To:</p> <ul style="list-style-type: none"> (i) A pharmacy or other designated person authorized by law to dispense or administer the prescription drug to a patient; (ii) A wholesale distributor to a pharmacy or other designated person authorized by law to dispense or administer the prescription drug to a patient; (iii) A wholesale distributor to a pharmacy warehouse to the pharmacy warehouse’s intra-company pharmacy or other designated person authorized by law to dispense or administer the prescription drug to a patient; (iv) A pharmacy warehouse to the pharmacy warehouse’s intra-company pharmacy or other designated person authorized by law to dispense or administer the prescription drug to a patient; or (v) An authorized distributor of record to another authorized distributor of record solely for distribution to an office–based health care authorized practitioner by law to dispense or administer the prescription drug to a patient.” Health Occupations Article, 12-6C-01(l), Annotated Code of Maryland. <p>If the chain of distribution does not comply with the definition of “normal distribution channel” then a paper pedigree would be required. If Cardinal Health is an exclusive distributor, the repackager is a licensed distributor, and the product is then sent to the hospital pharmacy, it would fall within the definition of normal distribution channel. Alternatively if the hospital pharmacy received the product directly and then sent it to the repackager, it would also stay within the normal distribution channel.</p> 		
		<p>3. Zakia Corria- Long Term Care Pharmacy Questions.</p> <p>1.Can full 30 ml bottles (versus unit dose) of a liquid medication (i.e. Roxanol ®) be placed in the automated dispensing machine (i.e. Pyxis®) that is located in a nursing home?</p> <p>RESPONSE: Multi-dose vials are not allowed in a Pyxis® machines because it would allow the nurse or medication technician to perform the act of dispensing. The Board recommends that only unit dose packages be stocked in Pyxis® machines.</p> <p>2. If yes, and the nurse obtains the 30ml bottle from the Pyxis®, can the nurse label the bottle with patient name and expiration date? The label would be supplied by the pharmacy but NOT at the time of dispense. The purpose of this label is to indicate who the medication is for ONLY-no drug name or directions would be included on label.</p>	<p>3. Motion:</p> <p>H. Finke made a motion to accept the letter as written.</p> <p>M. Handelman seconded the motion.</p> <p>C. Anderson was recused from voting.</p>	<p>3. Board Action:</p> <p>The Board voted to approve the motion.</p>

Subject	Responsible Party	Discussion	Motion	Action/Results
		<p>RESPONSE Labeling a bottle is a pharmacy dispensing function. Please be advised that a nurse may not label a bottle or perform dispensing functions.</p>		
		<p>4. Medi-Scripts Inquiry- Karen Daniels</p> <p>Medi-Scripts provide physicians across the United States with prescription pads. To aid us in our effort to continue supplying prescription forms that comply with state laws and regulations governing generic substitution and pre-printing of drug information, the follow sample Rx forms (for your state) are attached for your review.</p> <p>RESPONSE: The prescriptions forms you provided comply with Maryland law for non-controlled dangerous substances. The Board, however; does not suggest printing check-off boxes for medication quantities because an unauthorized individual could easily check off the box of choice or alter the boxes checked. Additionally, check-off boxes on prescriptions are not valid under the Maryland Medicaid Program. Discussion ensued related to the function of the “range” check-off boxes as a validation of the written quantity, i.e., making alteration quantities less likely due to the use of this “second level” of quantity verification by the prescriber. Pre-printed prescription forms for controlled dangerous substances are not permitted in Maryland. See Health General Article, 21-220(b)(2), Annotated Code of Maryland. Please also refer to Health Occupations Article, 12-313(b)(11), Annotated Code of Maryland, for an additional restriction for printed prescriptions.</p>	<p>4.a. Motion: M. Handelman made a motion to accept the letter as written.</p> <p>H. Finke seconded the motion.</p> <p>4. b. H. Finke made a motion to send a letter stating that the Board does not endorse products or forms.</p> <p>M. Souranis seconded the motion.</p> <p>C. Anderson was recused from voting.</p>	<p>4.a. Board Action The Board voted to disapprove the motion.</p> <p>4.b. Board Action The Board voted to approve the letter with the additional statement that the Board does not endorse products or forms.</p>
		<p>5. Stanton Ades- representing MACDS-Posting of signs under COMAR 10.34.26.02.</p> <p>We are requesting this minimum approved language approach because MACDS do not want to assume or speculate what the Board deems sufficient under COMAR 10.34.26.02 and expend resources to produce signs or other forms of messages, hoping to be in compliance, but then be subject to an inspector’s opinion that the sign or notice is inadequate.</p> <p>RESPONSE: The Code of Maryland Regulations (COMAR) 10.34.26.02D(1) – (4), effective since October 27, 2003, sets forth the complete requirements for providing educational information to patients. “The information provided to patients shall include: (1) A patient’s rights when receiving a medication or a prescription; (2) The patient’s role and responsibility in preventing a medication error; (3) The procedures to follow when reporting a suspected medication error to the pharmacy permit holder, pharmacist, health care facility, or other healthcare provider; and (4) How to report a suspected medication error to the Board.” The Board will not be providing additional details or revising the regulations because the current regulations are sufficient and additional detail is not necessary.</p>	<p>5. Motion H. Finke made a motion to approve the letter as written.</p> <p>M. Souranis seconded the motion.</p> <p>C. Anderson was recused from voting.</p>	<p>5. Board Action The Board voted to approve the motion.</p>
